Game Scenario Lesson Presentation

Look at each of the following Game Scenarios and indicate what you would do as the Referee in each situation. Look at it from both a "What is Right" and "What is Best" perspective.

There is not necessarily one singular correct answer. As the Referee on the field and in the game, you only have one final solution ... in each of the following Scenarios state what your one decision would be.

Use the **State ReCert Presentations Quiz Answer Sheet** to record your answers.

GAME SCENARIO "A"

During play, the goalkeeper for the Red team, who is angry and frustrated with his teammates and coach, storms out of the game and off the field and completely leaves the area.

While the Blue team begins its attack, the Red coach frantically gives Red #7, who is a substitute on the bench, a goalkeeper's jersey and pushes him onto the field and into the game, thus bringing the Red team up to 11 players and with an apparent GK.

GAME SCENARIO "B"

During play, a defender (D25) for the Red team, who is angry and frustrated with his teammates and coach, storms out of the game and off the field and sits in the stands behind the benches.

The defending Green team's GK and D27 are both standing on the goal-line during an attack on goal by the Orange team. The momentum of one of the Orange's attackers, A33, carries him over the goal-line and off the field of play.

After Orange A4 takes a shot, which rebounds off the goalpost, Orange A33 runs back onto the field, collects the rebound and then he takes a shot on goal.

While taking the shot on goal Orange A33 is violently pushed by Green defender D9, but the shot goes into the goal anyway.

GAME SCENARIO "D"

After Red A54 takes a shot, which rebounds off the goalpost, Red A17 runs back onto the field, collects the rebound and then he takes a shot on goal. While taking the shot on goal Red A17 is violently pushed by Green defender D39, but the shot goes into the goal anyway.
